Build Your Own Print Solution

Developing your own print solution for your business, whether it is for a standalone print solution, or as an add-on to your existing equipment, is an expensive and time-consuming process. Until you have proven and guaranteed your potential revenue streams, it may even be viewed as too large a step to take.

Additional revenues and increased profits can be generated by taking advantage of the variety of high-resolution, high-quality print solutions that Norwix has available.

No Label Solutions

Unlabeled hardware can be supplied for later branding outside of the Norwix manufacturing process. .

- **Apply your own decals**
- **Start small and scale up**

Complete Hardware Branding

Full branding including the ability to anodize key metal parts in specific colors. All references to Norwix are removed from the hardware and branded decals are applied. If customized software has been implemented, this will be installed and configured appropriately.

- **Anodized metalwork to suit branding requirements**
- **Customized decals applied**
- **Preconfigured software installed (if applicable)**
- **Transferrable Lifetime Warranty**
- **Maximum discount on all hardware**

Hybrid Hardware Branding

Conversion kits can be pre-purchased, containing any colored anodized parts and branded decals. These are used to replace the standard Norwix parts at time of manufacture.

- **Anodized metalwork to suit branding requirements**
- **Decals applied**

Customized Inks

Norwix can supply branded ink and supporting SDS, locked to your specific supply chain. From water based inks to solvent inks, from stand alone cartridges to bulk ink solutions.

- **Custom labels applied**
- **OEM ID programmed into the cartridge**
- **Drop shipping available**
- **Retain 100% of the ink revenue**

Transferrable Warranties

Norwix provides the industry's only Lifetime Warranty—If there is ever a problem, we will replace it free of charges for the lifetime of that product, whether 1 year or 20 years from now.

This is passed on to you and can be promoted to aid in your sales efforts.

OEM Print Solutions

Color and Graphics Branding

Software can be fully personalized to remove all references to Norwix, providing a fully personalized software solution. This includes changes in colors, logos and icons and assistance with customized software manuals and other support documentation.

- **Vega software branding**
- **Use your own corporate colors**
- **Change software names**
- **Customized printer names**
- **Ink locking for OEM branded Inks**

Board Level Solutions

Norwix can provide the essential products that enable you to build your own printing solution—the Norwix Print Controller board, pen driver boards and basic plastic print stalls.

Full documentation is available together with software, hardware and firmware specialists to assist in the development of your own custom product

- **Lowest cost coding solution**
- **Full technical support and documentation**
- **Minimal maintenance requirements**
